

JUWEL GR 2

Pasta rolling cutting machine JUWEL GR 2 with adjustable drive motor

1 machine description

For 50 years the pasta rolling and cutting machine **Juwel GR 2** proved itself as a very robust and reliable machine. It's one of the first pasta rolling machines that were produced in series. Its working principle and the quality of pasta produced by this machine have proven themselves in hundreds of factories in Germany and abroad. The working width is 300 mm. The built-in cutting device is adjustable in three pasta widths (1,5mm, 4,5mm and 9mm). The pasta will automatically be cut to a length of 300 mm. The machine is mobile and really easy to use.

2 technical data

performance data

Drive	0,75 kW
Weight	350 kg

dimensions

Length	1.750 mm
Width	750 mm
Height	1.300 mm
Band width	350 mm
Pasta cutting width	1,5 ; 4,5 ; 9 mm
